Parents' Perspectives About Tele-Intervention Services For Their Children Who Are Deaf  
or Hard of Hearing

Lauri Nelson [A00516295] - COMD Faculty

June 07, 2021

### **Background**

I am part of a national tele-intervention (TI) group. We released a survey to obtain parent and professional perspectives regarding TI services. All data have been collected. The decision was made to report findings in two separate articles - one for parent responses and one for professionals' responses.

### **Sample**

We have 67 responses from parents. Of those, 49 received TI and 18 received home-based. We did not anticipate this much disparity in group size.

### **Hypothesis**

Survey inquiry regarding parent and professional perceptions of TI services

### **Progress**

Simple statistics on survey data. I would now appreciate guidance on additional analysis needed, particularly with such varying group sizes.

### **Request**

Additional analysis

### **Timeline**

asap
