

## Request #: 484 - PSY - Publication/Article

Longitudinal modeling of USU student academic and mental health function

Becky Blais [A02065951] - PSY Faculty

September 02, 2020

### **Background**

I can't recall how to best manage longitudinal data. There are 4 time points

### **Sample**

115 students, followed across 4 time points with attrition

### **Hypothesis**

NA

### **Progress**

data coding

### **Request**

how to best approach data analysis

### **Timeline**

Needs to get done this month before my maternity leave!
